¹ E.g. a contract on the issuance of a guarantee, an agreement on opening a letter of credit (with advance or deferred cover depositing), credit line agreement, B/E discount contract, factoring agreement etc.

managing risks, fulfilling regulatory requirements of the Republic of Croatia and EU law, we also need your other information about the people you are connected to in line with Regulation (EU) 575/2013 (e.g. information about the spouse or other persons with equal status, close family members or natural persons from a legal person you are closely linked with), and debts to other financial institutions, creditworthiness data, etc).

The Bank may outsource, i.e. entrust certain operational activities related to KGP to third parties that meet high security and protection requirements pursuant to Article 28 of the General Data Protection Regulation (for example, in the case of certain operational activities that precede the approval of KGP or in the case of unpaid receivables collection, etc.). In this case, your personal data needed for these purposes are also processed.

Also, when assessing your creditworthiness and the fulfilment of your obligations, the Bank may ask you to provide reports of your credit obligations from a register kept by a legal person established to collect and provide information on the creditworthiness of natural and legal persons (e.g. Croatian Registry of Credit Obligations or other legal persons established by a special act or a legal person collecting and exchanging data between credit and/or financial institutions on clients who have not fulfilled their due obligation in time as well as in other cases prescribed by the Credit Institutions Act and other acts). Exchange of these data is also exempted from the obligation of banking secrecy under a special regulation governing banking secrecy. We may process such data in the case of approval of KGPs by the Bank and a third party as a joint controller (for example, for loans granted to holders of American Express business cards issued by PBZ CARD d.o.o. that are repaid by that card), and in that case, if you are not satisfied with such processing, you can object to processing, as described in more detail under Section VII of this Information.

In some loans, we also process data on your transaction account number at the Bank or another bank to check the regularity of your business operations and/or the amount of your income and/or the use of the approved KGP or repayment of the KGP if it is repaid in such a manner.

In addition to these data, for the purposes of KGPs linked to a card, we also process the data provided by you, as a data subject, in the application forms either to the Bank or to a third party which is a joint controller with the Bank, by implementing other processing required for creditworthiness assessment.

For the purposes of KGPs secured by a lien on real estate or some other property (e.g. a deposit), the Bank processes data on real estate (e.g. real estate owners or deposit holders as lien debtors) and data on spouses and persons equal to them (unmarried partners, civil partners) according to the provisions of the Family Act (for example marital acquest, family home etc.).

If a KGP is to be granted on the basis of business cooperation between the Bank and a third party, either a member of the PBZ/ISP Group or a third party, regardless of ownership connection with the Bank (e.g. approval of a KGP from funds or with the guarantees of domestic and foreign development banks/agencies or funds (e.g. HBOR, EIB, EBRD, EIF, GGF, HAMAG BICRO etc.), interest rate subsidies by local and regional self-government units or other business entities, loans repaid with a card of another issuer, approval of financial/banking services with insurance products of insurance companies, etc.), data are exchanged between the Bank and this legal person only to the extent necessary for the performance of this contract, while respecting all technical and organizational prerequisites and protecting your data.

Depending on the individual distribution channel of the Bank through which you apply for or use a KGP or through which a KGP is approved or repaid, some of your personal data is additionally processed due to the particularities and the functionality of the channel you use (for example, when applying for a KGP through the Bank's digital banking for business entities, the Bank processes also your data related to the functionalities of the channel, etc.).

If you do not settle your obligations in time, your data may be processed for the purpose of debt collection, which includes, but is not limited to phone calls to the extent permitted by regulations, outsourcing of debt collection to processors in the Republic of Croatia or in a EU Member State or sale/assignment of claims to other legal persons. Should collateral be exercised in the process of debt collection, we process your data for this purpose (for example, in case of debentures, we submit data to the Financial Agency (FINA), in case of garnishment of wages, we submit data to the payer of wages, and in case of insurance policies to the insurance company in which you have taken out

insurance). In the case of forced collection of claims, we process the data prescribed by a particular regulation (e.g. by the Execution Act, etc.), and we submit them to the attorneys-at-law in certain cases.

In the contractual relationship mentioned above, we also process data on your attorneys/authorised persons (for example, basic identification data needed to make a card (if issued for a particular type of service), address to which PIN is to be sent, etc.).

If you have agreed a standing order in addition to transaction account, for the purposes of executing a standing order we process personal data of the business entity-natural person acting within the scope of his/her business activity or independent profession listed under (A) in this Section as well as the transaction account number, and we also exchange data with creditors in case of SEPA direct debits (if the business entity-natural person acting within the scope of his/her business activity or independent profession has arranged such a service as debtor). If the request for opening a transaction account was received through START system, the Bank automatically uploads data listed under (A) from the quoted system. Certain personal data (for example, name, surname, TPIN (OIB), address) are required so that a card could be made by a business entity entrusted with the processing of card operations.

Depending on the individual distribution channel of the Bank through which you apply for or contract a card, some of your personal data are further processed due to particularities and functionalities of the channel you use (for example, personal data for contracting electronic and digital banking
